LEARNING SOLUTIONS

For strong players in the cleanroom

Our training
processes meet
ISO 21001 and
ISO 29993 standards

In contamination-sensitive industries, maintaining peak-level awareness of cleanroom behavior is not a one-time task – it is a daily challenge. That is why comprei delivers flexible and impactful training solutions.

Whether it is continuous learning support, low-threshold refreshers in everyday operations, or practical training on-site or at the comprei training center – you choose the format that best suits your needs.

Our tailored services are:

- » closely aligned with your processes and workflows
- » focused on specific learning objectives with high practical relevance
- » especially memorable through illustrative visualizations and simulations

Current examples of topics and learning goals can be found at

CLEAN SERVICES

Cleanliness that protects processes

Cleanliness is not just a requirement – it is a non-negotiable foundation for safe operations. comprei creates and maintains those conditions, adhering to standards like EU-GMP and ISO 14644.

Based on individual requirements, over 120 comprei employees ensure cleanliness in more than 200 cleanrooms every day – including pharmaceutical and micro-technology facilities, cleanrooms, and complex machinery.

We also support qualification projects and contamination control strategy improvements.

Our Clean Services include:

- » Machine and equipment cleaning including packaging concepts – protects technology and facilitates safe transport
- » Specialized cleanups – on-demand after maintenance or unexpected incidents
- » Qualification-grade cleaning – establishing audit-ready environments
- » Regular cleanroom cleaning – compliant and documented, supporting stable production

Clean Services
for individual
requirements

CLEAN CONSUMABLES

The foundation for safe processes in your cleanroom

Every day, countless items enter your cleanroom – their quality directly affects safety and stability. That's why we rely on a proven supply chain, built with long-standing partners and stocked locally in southern Austria.

Our experts are always on the pulse of innovation, attending global industry events and training programs.

Strict internal product testing and data from extensive field studies in the Clean Services division guarantee products that are “tried and tested.”

With expert advice and field-tested products, we help you meet current standards while operating efficiently and sustainably.

CONTAMINATION IN CONTROL

With over 25 years of experience, comprei is a trusted European leader in cleanroom solutions. Our service portfolio spans three interconnected business areas – delivering a strong foundation for your sensitive processes:

Learning Solutions – real-world training that empowers employees to act confidently in cleanroom settings. Over 12,000 learners and their companies have already benefited.

Clean Services – over 100 employees ensure cleanliness in more than 200 cleanrooms every day, enabling demanding high-tech processes.

Clean Consumables – tested consumables and accessories ensure quality and innovation. Together with long-standing partners, we maintain a stable supply chain.

Certified to ISO 9001, ISO 21001, and ISO 29993, comprei stands for excellence, trust, and forward-thinking solutions.
